DEWEY PEST CONTROL CO.

**INSTRUCTION SHEET FOR SILVERFISH, HOUSE ANTS AND STORED FOOD PESTS
 ALL PESTICIDES WILL BE USED IN ACCORDANCE WITH MANUFACTURER'S LABEL**

TO WHOM IT MAY CONCERN:

In order to give you the best possible service, with the least inconvenience to you, we would appreciate your cooperation with these instructions before and after our technician treats you premises. In the event that everything is not ready, another appointment will need to be made by the client, at an additional charge.

BEFORE

- 1) Remove all items from kitchen cupboards (lower and upper), dishes, pots, pans, glassware, foodstuff, canned goods, etc. Place them on a table and cover with a sheet (cupboards will not be treated if items are left inside). Take all drawers out and turn them upside down on a counter top.
- 2) If any items are left on the kitchen floor or adjacent areas, keep them at least three (3) feet from the wall (bare area).
- 3) Empty medicine cabinets, counter tops and all cabinets under bathroom sinks (towels, toilet tissue, medicines, etc.).
- 4) Any scrubbing or cleaning of cupboards, walls or shelves should be done **BEFORE** treating occurs.
- 5) **NOTE:** Dewey Pest Control recommends all persons must vacate for 4 hours and until treated areas have dried. Persons with ailing health, pregnancy, or infants must vacate for 24 hours and/or follow their doctor's advice.
- 6) Remove all pets for at least a four (4) hour period. Pet birds must be removed for twenty-four (24) hours.
- 7) Aquariums should be sealed off with plastic coverings, and the filter turned off for a four (4) hour period.
- 8) For Ants be sure all possible food items are cleaned up such as soda cans, candy, and anything that can be a potential food source or attractant.
- 9) For Silverfish, assuring areas of your home are moisture free will help to eliminate silverfish.
- 10) For Stored Food Pest is it important to go through all stored food items for infested product such as spaghetti noodles, cereal, flour, dried fruit, spices etc... It is recommended to keep stored food products in freezer/refrigerator, or airtight containers.

AFTER

- 1) Upon returning to the premises, open windows for a short period of time. Thoroughly ventilating treated areas following application can reduce potential odors.
- 2) Turn aquarium filter back on & remove plastic covering.

YOUR APPOINTMENT IS FOR:
 DATE _____ TIME _____

FOLLOW UP INSPECTION/TREATMENT: (IF NECESSARY)
 DATE _____ TIME _____

If there is any change in plans, please call _____ . *Thank you.*

NOTICE

State law requires that you be given the following information:

CAUTION – PESTICIDES ARE TOXIC CHEMICALS. Structural Pest Control Companies are registered and regulated by the Structural Pest Control Board, and apply pesticides that are registered and approved by the California Department of Pesticide Regulation and the United States Environment Protection Agency. Registration is granted when the state finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized.

If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu, contact your physician or poison control center and Dewey Pest Control immediately. (SEE REVERSE SIDE FOR TELEPHONE NUMBERS)

For further information, contact any of the following: Dewey Pest Control; for Health Questions – the County Health Department; for Application Information – the County Agricultural Commissioner and for Regulatory Information – the Structural Pest Control Board.

The pest to be controlled: _____ ROACHES _____ SILVERFISH _____ HOUSE ANTS _____ STORED GRAIN PESTS _____ OTHER _____
 The pesticides used and the active ingredient:

INSECT CONTROL CHEMICALS: (The pesticides used will be checked here or left on a door hanger or service order.)

NOTICE

State law requires you be given the following information: CAUTION – PESTICIDES ARE TOXIC CHEMICALS. Structural Pest Control Companies are registered and regulated by the Structural Pest Control Board, and apply pesticides that are registered and approved by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that based on existing scientific evidence there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree or risk depends upon the degree of exposure, so exposure should be minimized.

If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu, contact your physician or poison control center and Dewey Pest Control immediately.

Anticoagulant rodenticides reduce the clotting ability of the blood and cause bleeding.

For further information contact Dewey Pest Control. For Health Questions contact the County Health Department. For Application Information contact the County Agricultural Commissioner and for Regulatory Information contact the Structural Pest Control Board.

Pests and areas covered and service frequency vary by agreement, but generally include:

Pests Covered: Ants / roaches / mice / rats / spiders / fleas / silverfish / ticks / stored grain pests / moths / bees / sowbugs / gophers / earwigs / crickets / flies / gnats / hornets / mites / pigeons/ pillbugs / opossums / springtail / squirrels / wasps / yellow jackets. **Areas Covered:** interior / exterior / inside on request (**For specific pest coverage, refer to your Service Agreement**).

Service Frequency: Weekly / Bi-Weekly / Monthly / Bi-Monthly / Quarterly / One Time / Call Back (**For specific service frequency, refer to your Service Agreement**).

Pesticides used / active ingredients:

565 Plus XLO – Pyrethrins + P.B.O
 Advion - Indoxacarb
 Alpine - Dinotefuran
 Arilon - Indoxacarb
 Avitrol - 4 Aminopyridine
 Bedlam - Sumithrin + MGK264
 Bifen I/T - Bifenthrin
 Borid – Orthoboric Acid
 CB-80 - Pyrethrins
 Cy-Kick Crack & Crevice
 Pressurized Residual - Cyfluthrin
 Delta Dust - Deltamethrin
 DeltaGard G - Deltamethrin
 Demand CS - Lambda /cyhalothrin
 Demand G – Lambda/cyhalothrin
 Drione – Pyrethrins+P.B.O+Silica Gel
 Durham Metaldehyde Granules 3.5 - Metaldehyde
 EcoPco-Acu-Reduced Risk Products – 2-Phenethyl Propionate
 Essentria I C3 – Rosemary oil/Geraniol
 Excite - R - Pyrethrins
 Gentrol IGR - Hydroprene
 Larva Lur - Propoxur
 Maxforce Complete Granular – Hydramethylnon or Fipronil
 Maxforce FC – Hydramethylnon or Fipronil
 Maxforce FC Magnum – Hydramethylnon or Fipronil
 Maxforce Impact Roach Gel Bait - Clothianidin
 Microcare 3% CS – Pyrethrins/Piperonyl butoxide
 Motherearth D – Diatomaceous Earth
 Niban Granular Bait - Orthoboric Acid
 NyGuard IGR - Pyroproxifen
 Onslaught FastCap – Esfenvalerate/Prallthrin/PBO
 Phantom Termite/Insecticide - Chlorfenapyr
 Precor IGR - Methoprene
 Premise Foam - Imidacloprid
 Sluggo - Ironphosphate

Sterifab - Isopropanol
 Suspend SC - Deltamethrin
 Talstar PL Granules- Bifenthrin
 Tempo Ultra W.P. - Cyfluthrin
 Temprid SC - Imidacloprid
 Termidor HE - Fipronil
 Termidor SC - Fipronil
 Timbor – Disodium Octaborate Tetrahydrate
 Transport GHP - Acetamidprid/Bifenthrin
 ULD BP-100 - Pyrethrins
 ULD BP-300 - Pyrethrins
 Ultracide – Pyriproxyfen/Pyrethrins
 Vendetta Plus – Avamectin B1
 Wasp-Freeze - d-trans Allethrin

Rodenticides used/ active ingredients:

Contraq All-Weather Blox- Bromadiolone
 Eaton's Answer - Diphacinone
 Fastrac All-Weather Blox - Bromethalin
 First Strike - Difethialone
 Generation - Benzothioipyran
 Terad 3 Blox - Cholecalciferol
 Wilco Gopher Getter II – Diphacnone
